

Rushikesh Ghosalkar

Software Engineer

Software Engineer with 4 years of experience building scalable APIs, backend systems, and web applications using .NET Core, C#, and React. Skilled in microservices and AWS, with hands-on work in serverless architecture using Lambda, DynamoDB Streams, and S3. Focused on delivering secure, maintainable, and high-performance solutions.

WORK EXPERIENCE

Software Engineer

Cornerstone Ondemand (10/2024 - Present, Mumbai, India)

- Engineered highly scalable AWS Lambda services to replicate and rehydrate DynamoDB stream data to S3, supporting elastic and distributed data systems aligned with cloud-first principles.
- Identified and resolved Docker image vulnerabilities, enhancing security and compliance in a globally distributed environment.
- Delivered robust and maintainable feature enhancements across both hybrid monolith-microservice and standalone microservice architectures, enhancing performance, scalability, and maintainability in cloud-native environments.
- Collaborated in Agile teams to decompose epics into stories, estimate efforts, and deliver sprint-based outcomes.

Software Development Engineer

Diebold Nixdorf (04/2024 - 10/2024, Mumbai, India)

- Designed and implemented a multithreaded automation framework for testing ATM and POS systems, optimizing responsiveness and throughput under concurrent workloads.
- Leveraged .NET Core and C# to deliver performance-sensitive solutions tailored to real-time embedded systems.

Software Engineering Analyst

Accenture (08/2021 - 04/2024, Mumbai, India)

- Built and maintained RESTful APIs using .NET Core and C# to support reliable, secure communication in distributed microservices architectures.
- Applied rate-limiting and caching strategies, enhancing system reliability and handling increased user loads with reduced latency.
- Implemented OAuth2-based authentication/authorization, fortifying APIs against common vulnerabilities.
- Refined frontend performance using Redux for efficient state management and improved rendering logic.
- Wrote complex Oracle SQL stored procedures, optimizing backend data processing.
- Facilitated smooth version control processes by utilizing Git workflows for efficient team collaboration on projects.

SKILLS

.NET Core

React

Redux

C#

Oracle SQL

GIT

Docker

AWS

EDUCATION

Bachelor Of Engineering in Computer Science and Engineering

Datta Meghe College of Engineering, Mumbai
(08/2017 - 07/2021)
GPA: 3.42/4

ACHIEVEMENTS

Shared Success Catalyst Award

Recognized with the Shared Success Catalyst Award at Accenture in 2023 for closely collaborating with clients to deliver exceptional value.

ACE award

Acknowledgement of my hard work and unstinted efforts to ensure exceptional results at Accenture in 2022.

DSA 400

Solved about 400 coding questions on LeetCode alone, leveling up my DSA skills.
